About me

Hi, my name is Toshal Ghimire but I am better known as Tosh! I was born in Nepal but have lived in the states for a majority of my life. I am a recent graduate of the University of Colorado Boulder. I am very passionate about learning and everyday I wake up with a desire to learn in order to grow knowledge and my technology stack. I love Programming, American football, television shows, gaming and of course a good laugh.

Projects

Full details about these project and more can be found on my website

- 2018 Room8 Mobile App
This is my senior project, a cross platform mobile application Developed by me and my team for people living in shared living situation
- 2018 NFL Teams APP Android
The NFL app was taking too long to load so as a project I decided to remake my own version designed just for fantasy football research filled with contents that updates in real time
- 2018 Machine Learning College Course
Visit my website to view all the popular machine learning algorithms I implemented as well as a five page report on reinforcement learning.
